

Dear Filipa,

Thanks again for the undated cuttings and arrangement for translation.

The following is the list you sent us so far. I added some information such as the names of reporters and writers, dates, and the titles of articles. I changed the order a bit to group some of them like "Architect." I believe you will wrap up all at the end, but I would like to share the list, which I edited the ways we would like to keep as records.

Very best,

Sung
