

Dear John,

Thanks so much for the essay. I will put it at the beginning for the special issue. I will try to translate the first 3 paragraphs and summarize the remaining. Unfortunately, all other essays are in Korean.

If you can take half an hour, would you look at a short version of UIA theme I sent?

I hope the School headache, whatever it is, is very trivial looked from the long-term perspectives. I still remember your advice when we discussed about my son's career path. You said, "There is always ways to pass through."

Best, Sung
