Dear Johanna

I've received your fax and e-mail by okyohn lee. My fax is still in problem. I can receive but I cannot send you fax. They said that it's no problem but it does not work! So now I send e-mail. Do you set up the 'hwpviewer' program in the cd rom? If it does not open after setting up the program,... um~~~ I'm sorry I don't know either. Do you ask to okyohn?

So long,

Sincerely yours      yongik, kim
