

Here is the Sierra family from Mexico, performing in costumes from The Bremen Town Musicians. They currently reside in the United Kingdom and work in a shoes manufacturing factory as laborer. Despite their immigrant status as illegal aliens in the U.K., they will be paid five Euros per day for being hired for this art exhibition eight hours a day.

I would like to applaud this temporarily employed foreign family for encouragement.

To ensure their successful performances, please refrain from touching and any behavior that may impede their performances.
